WEST CHESTER, Pa., March 6 /PRNewswire/ -- ComCam International, a subsidiary of ComCam, Inc. ([CMCA - news](#)) ("Company"), a pioneering developer of Internet Protocol video-networking solutions, announced today that it has been accepted into Symbol Technologies, Inc.'s ([SBL - news](#)) PartnerSelect Program and successfully completed the Symbol PLUS Validation program.

According to ComCam's CEO, Don Gilbreath, "Being a Symbol partner with Symbol PLUS validation brings ComCam into Symbol's family of enterprise mobility solutions. In turn, we bring our video command and control to Symbol's user base."

Symbol performed extensive testing of ComCam's PocketC3 client software on Symbol's MC50, MC70, and MC9062 mobile computing devices, running over a Symbol wireless switch LAN network and Cingular GPRS network. Symbol's validation report found that "leading industry CCTV cameras in remote locations were viewable with pan, tilt, and zoom control" on these devices. It also found "the PocketC3 was very straightforward and simple to set up. ... [and] worked right out of the gate on all devices under test." (The full report can be found at the ComCam website.)

Gilbreath added, "The Company's initial goal is to bundle a Symbol device with ComCam's MicroServer and its PocketC3 software. The bundle will give traditional CCTV users a handheld device for video command and control as well as allow current Symbol users to tie their existing security functions to their mobile devices."

ComCam International, Inc. offers advanced IP cameras, video microservers, specialized viewing software and end-to-end network control solutions. The Company specializes in wireless IP, mobile, and wearable devices that are ideal for remote use in inhospitable environments. Its products are deployed in situations ranging from simple access control with video applications to advanced measurement solutions for weather stations, robotic equipment, commercial aircraft for live air-to-ground video and advanced homeland security products. ComCam has worked with leading U.S. government agencies, including the Department of Defense, U.S. Navy, Federal Bureau of Investigation and Department of the Interior.
